

School Nutrition Program (SNP) Annual Checklist

(Quarter 2 - October, November, December)

A few months in! Now that you are hopefully finding your groove this school year, here are a few ideas to consider, planning to take place in the next few months, and more resources to review.

Meal Service Models:

* Meal Service Models include breakfast and/or lunch in the classroom, Grab n' Go carts in the hallways, second chance breakfast, and any other alternative meal service outside the typical cafeteria.

- Have you considered Breakfast in the Classroom or a Second Chance Breakfast program? Now is the time to think about what classrooms might be interested or what location could work for a new breakfast cart. Take your time! There is no need to rush into any Meal Service Model. Do what works best for your school buildings and food service program.

Tips and Tricks:

- What do you need to know about [Net Cash Resources, Excess Funds and Equipment purchases](#)? The Fiscal and Administrative Services Team (FAST) can help answer any questions.
- Set up a Food taste test plan to allow students to sample new menu items and reinforce the favorites. The plan could include specific buildings or be district-wide and can help with menu planning throughout the year.
- Pulling the Direct Certification Report for student matching is required 3x a year for Traditional claiming buildings and 1x a year for CEP buildings. MDE recommends pulling the report and matching students every time the list is refreshed (monthly at a minimum)
- Remember to keep all program documentation for 3 years plus the current year and until your next Program Reviews
